PRACTICAL INFO

Staff

Armed with an abundance of experience and a wealth of knowledge our professional Icelandic team know the country inside out. We are here to ensure you have the best possible trip so ask us anything, we love sharing our local knowledge!

Food

Breakfast is provided at the guesthouse in Reykjavik.

If you are camping we will provide you with camping equipment to cook your own meals and you will be responsible for your food. The tap water in Iceland is of very high quality and it is delicious. Alcohol is very expensive in Iceland and you can only buy beer which is stronger than 2.25% alcohol in state run liquor stores. If you want to enjoy an evening drink after your days adventures, we recommend buying Duty Free alcohol in the airport..

We have lots of recommendations of where to eat and where to do groceries regardless of your budget. Iceland has options for everyone from traditional restaurants with adventurous local cuisine to cheap burgers and gourmet fish options.

Accommodation

Your first and last nights will be spent in a guesthouse close to Reykjavik city centre. It has shared bathroom and kitchen facilities, hot showers and heating. Please bring a sleeping bag.

Camping

Imagine unzipping your tent to views of geothermal hotspots, multi-coloured mountains and lava formations... Not only is camping an eco-friendly way to explore Iceland's spectacular environment, it also means that these unspoilt remote areas literally become your home. We provide all of the technical equipment needed for your camping adventure. Generally we offer one 3 man dome tent per 2 people for maximum space and comfort, We will also provide you with modern cooking equipment, a few other essentials and some friendly advice to help you make the most of your adventure. Icelandic campsites are generally very clean with excellent facilities including electrical outlets. Sometimes there is a hot water fee for showers (around 3-4euros).

Farmhouse

Farming is a big part of Icelandic traditional culture; staying in a farmhouse is a great way to meet locals and discover more about traditional Icelandic culture. Farmhouse stays normally come with full board and a shared kitchen/communal area, bathrooms are normally shared between 2-3 rooms and en suite options are sometimes available. Our farmhouses are popular and have limited capacity, especially in high season, reservation in advance is necessary!

Transportation

Care Hire

Iceland has a fabulous network of scenic roads which connect its most popular destinations, most capes and the inhabited countryside across the island. Some of the 'roads' are however more like 'tracks' and fjord crossings are not uncommon - depending on your chosen route it may be advisable to reserve a 4x4 vehicle. From November to March we recommend that you hire a 4x4 vehicle regardless of your chosen route.

In general you can expect to find petrol stations, shops and accommodation options around every 70miles. Fuel is not included in the car rental rates but prices in Iceland are fair.

You will need a valid driver's license, issued for at least 12 months before the rental date.
Minimum age: 20 or 23 for a 4x4 vehicle.

Collision Damage Waiver (CDW) Insurance: Icelandic law demands that vehicle rental is coupled with third party insurance. In the event of an accident you are responsible for all the damage. It is strongly advised to take out additional on site insurance to reduce costs in the event of an accident. **CDW insurance is included in our prices.** For more information and options please see the terms & conditions page for this trip and do not hesitate to contact us if you have any questions.

Budget & exchange

The currency in Iceland is Icelandic Krona (ISK). Please budget for:

- Evening meals in Reykjavik (2500-5600ISK)
- Drinks & personal expenses
- Fuel & additional insurance options/car accessories

Tips

Although the custom is not widespread here, if you are satisfied with the services of your local team, tipping is always appreciated - it is not obligatory and should be left to the discretion of each individual.

Supplied equipment

All technical camping equipment will be provided if you have chosen our camping option

Vital equipment

Please bring a sleeping bag

Material

We prefer that you do not wear cotton clothing, including underwear, when participating in activities. When cotton gets wet from water or sweat it ceases to insulate and it does not dry fast. The best materials for outdoor activities are fast drying materials like polyester or materials which are warm when wet like wool. The most powerful materials against the wind and rain are 'breathable' materials like Gore-Tex or Nikwax.

Our advice for keeping warm:

Winter in Iceland can be very cold, please think carefully about what clothes you bring, although we will provide warm outer layers, the layers you wear next to your skin make the biggest difference.

We recommend: No cottonBring dry spares of everything, even underwear and gloves

Wear multiple layers including:

1. warm breathable base layer
2. second thermal layer
3. Wind and waterproof protective out layer

Helpful equipment

You may also consider packing

- Your camera
- Binoculars
- A notepad and pencil
- A thermos flask
- Plastic bags for wet/dirty clothing
- A comfortable evening outfit
- Walking poles
- Inflatable pillow
- Insect repellent

Luggage

Please bring a small rucksack to use as a day bag. You can bring this as hand luggage on the aeroplane. You will carry your lunch, water, spare layers and any personal medication with you each day in this bag. You will also need a larger bag to store your other clothes and belongings in, please ensure that this is a soft bag like a rucksack or holdall rather than a hard cased suitcase because it is more practical to transport. We recommend packing all of your clothes in plastic bags so that they stay dry in the event of wet weather.

Medicine

Your companion has a first-aid kit during the tour. However, we recommend that you bring your medications:

- Personal medication
- Anti pain medication Paracetamol

- Diarrhoea drugs
- Intestinal dressing
- Sun screen with strong protection for the lips and the skin
- Eye drops for the eyes
- Moisturizing cream for the treatment of superficial burns (blisters and sunburns)

From June to September it is nearly always light with the return of night and the first Northern Lights appearances towards the end of August.

Electricity

Iceland uses Northern European electrical standards (50Hz/220 volts) and the standard Europlug socket with two round prongs.

Please be aware that some of our more remote campsites and refuges charge for electricity use.

Sustainable tourism

As adventure and wilderness travel experts who run trips to some of the most remote parts of the world, we take responsible tourism very seriously. We respect the 'Leave No Trace' outdoor ethical code and try to explore this beautiful location whilst causing minimal environmental damage.

The Leave No Trace policy can be summarized in 7 simple steps which we hope you will follow during our trip...

1. Be prepared
2. Stick to trails and camp overnight right
3. Stash your trash and pick up waste
4. Leave it as you find it
5. Be careful with fire
