Déplacement et portage

Care Hire

Iceland has a fabulous network of scenic roads which connect its most popular destinations, most capes and the inhabited countryside across the island. Some of the 'roads' are however more like 'tracks' and fjord crossings are not uncommon - depending on your chosen route it may be advisable to reserve a 4x4 vehicle. From November to March we recommend that you hire a 4x4 vehicle regardless of your chosen route.

In general you can expect to find petrol stations, shops and accommodation options around every 70miles. Fuel is not included in the car rental rates but prices in Iceland are fair.

You will need a valid driver's license, issued for at least 12 months before the rental date.
Minimum age: 20 or 23 for a 4x4 vehicle.

Collision Damage Waiver (CDW) Insurance: Icelandic law demands that vehicle rental is coupled with third party insurance. In the event of an accident you are responsible for all the damage. It is strongly advised to take out additional on site insurance to reduce costs in the event of an accident. **CDW insurance is included in our prices.** For more information and options please see the terms & conditions page for this trip and do not hesitate to contact us if you have any questions.

The currency in Iceland is Icelandic Krona (ISK). Please budget for:

- Evening meals in Reykjavik (2500-5600ISK)
- Drinks & personal expenses
- Fuel & additional insurance options/car accessories

Pourboires

Alcohol is very expensive in Iceland and you can only buy beer which is stronger than 2.25% alcohol in state run liquor stores. If you want to enjoy an evening drink after your days adventures, we recommend buying Duty Free alcohol in the airport.

The tap water in Iceland is of very high quality and it is delicious.

Equipement fourni sur place

All technical camping equipment will be provided if you have chosen our camping option

Equipement indispensable

Please bring a sleeping bag

Bagages

You may bring a hold bag (up to 23kg) as well as a cabin bag

We recommend that you bring a soft bag for your hold luggage like a rucksack rather than a hard cased suitcase because it is more practical when loading local buses and trailers. We also recommend that you bring a small rucksack that is appropriate for use as a day bag for your hand luggage. This is practical for carrying your lunch, water and any personal medication with you each day.

Pharmacie

We recommend that you bring with you a small first aid kit and any medication you may need such as inhalers, plasters and painkillers.

A valid European Health Insurance Card (EHIC) will insure that you can access state-provided
